# Young Adult Society

Young Adult Society is a social group that offers recreational activities to young adults who have mental health concerns. This group evolved to provide opportunities for social interaction.

Activities which are selected by its members include movies, picnics, pizza parties theatrical and sports events, etc. The activities of this group are recreational, but beyond that Y.S. is a place where you will find acceptance and friendship.

Most of the time the member will be responsible for paying for his or her own costs. **However, some of the activities will be free.**

Transportation will be provided by the participants and their families.

The name of the group was selected by its participants. It is in fact their way of saying to everyone “We are people just like everyone else who want to have a good time.”

We welcome you to Young Adult Society All young adults aged 18 to 30 can join. All who join must also join NAMI.

*Join in our activities.*

*You will find in our group  
friendship and enjoyment.*
