

## **EXAMINING PERSISTENCE IN SMOKERS WITH SCHIZOPHRENIA**

We are conducting a research study designed to help smokers with schizophrenia quit smoking. We provide free counseling and free nicotine patches.

If you are an adult smoker with schizophrenia or schizoaffective disorder between the ages of 18 and 64, you may qualify to participate in this study.

Participants are paid up to \$100 over 4 months and receive free counseling and nicotine patches.
